Classroom
Activities

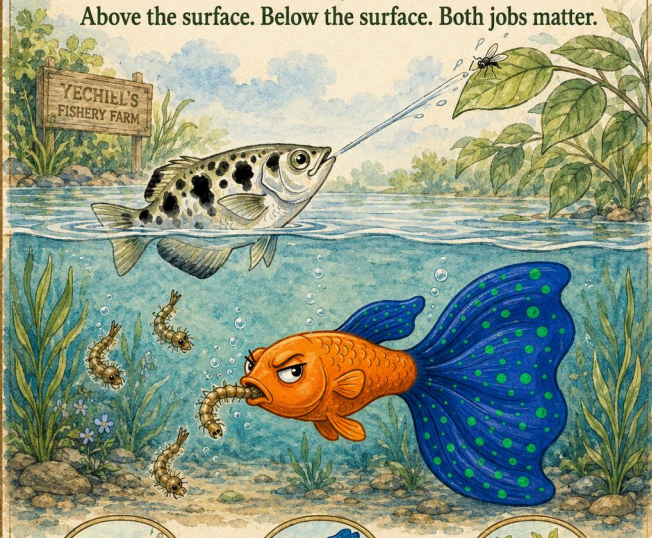

Funny fish. Real biology. Curious readers.

YECHIEL'S FISHERY FARM

Mosquito Patrol

Above the surface. Below the surface. Both jobs matter.

Archerfish can
shoot insects
with water.

Guppies can eat
mosquito
larvae.

Biological control
means nature
helps do the job.

Science in action at Yechiel's Fishery Farm.

Real Scientists Ask Questions

Observe. Ask. Record. Learn.

What
do you
notice?

What
do fish
need?

What
changed
today?

What can we
learn from
careful
observation?

Every big discovery starts with careful looking.

Fishery Farm Reading Badges

Cut, collect, and celebrate curious readers!
